

# Kris Klingberg

*My work experience has been enhanced by using technology to sell solutions in various venues. My current role requires more in-depth use of technology. My technical skills are being enhanced through Udacity's development courses.*

## Technical Skills

*Languages:* JavaScript, HTML5, CSS3  
*Frameworks/Libraries:* jQuery, Bootstrap, Knockout.js (MVVM)  
*Other:* Sublime, GitHub, Brackets

## Project Experience

- Neighborhood Map** – [github.com/frontend-nanodegree-neighborhood-map](https://github.com/frontend-nanodegree-neighborhood-map) *In Progress*
- Single-page, responsive application built with Knockout.js framework and hosted on GitHub Pages.
  - Developed a full-page map that loads with 20 popular jazz clubs in Atlanta, GA
  - User can view recent pictures taken at each location (retrieved by AJAX request to Instagram API).
- Arcade Game Clone** – [github.com/frontend-nanodegree-arcade-game](https://github.com/frontend-nanodegree-arcade-game) *September 2015*
- Clone of the classic game, Frogger. Udacity provided the art assets and game engine.
  - Coded player, enemies, and other game entities in JavaScript's object-oriented pseudo-classical style.
  - Created enemy subclasses with different movement patterns and sprites.
- Website Optimization** – [github.com/frontend-nanodegree-mobile-profile](https://github.com/frontend-nanodegree-mobile-profile) *In Progress*
- Optimized critical rendering path of existing website to achieve PageSpeed Insights score above 90.
  - Eliminated inefficiencies in the website's scroll animation. Site now scrolls at 60 frames per second.
